## **Table of Contents**

- 1.0 [Introduction](#)
- 1.1 [Background](#)
- 1.2 [Recommended Monitoring Design Procedures](#)
- 1.3 [Monitoring Program Management](#)
- 2.0 [Develop Monitoring Objectives and Performance Criteria](#)
- 2.1 [Monitoring Program Objectives](#)
- 2.2 [Performance Criteria](#)
- 3.1 [Establish Testable Hypotheses](#)
- 3.2 [Selection of Statistical Methods](#)
- 4.0 [Select Analytical Methods and Alternative Sampling Designs](#)
- 4.1 [Selection of Field and Laboratory Methods](#)
- 4.2 [Alternative Sampling Designs](#)
- 4.3 [Use of Existing Monitoring Programs](#)
- 5.0 [Evaluate Monitoring Program Performance](#)
- 5.1 [Evaluate the Expected Performance of Individual Monitoring Program](#)

## Components

5.3 Statistical Power Analysis Methods

6.0 Design and Implement Data Management Plan

6.1 Data Management

6.2 Data Analysis

7.0 Communicate Program Results

8.0 References
